Note: It is recommended that all chains associated with moorings be galvanized. Moorings should have adequate ground tackle, pendant(s), chafing gear and scope for the area and conditions expected. A vessel riding on its mooring must not infringe on other moorings. Moorings, by action of wind or current, shall not encroach upon navigation channels maintained by the Corps of Engineers, or interfere with established fairways, wharfs, docks, or floats. Mooring buoys shall be white with a clearly visible horizontal blue band around the circumference of the buoy centered midway between the top of the buoy and the waterline. The weight of the anchor and name of the vessel should be indicated on the buoy. Moored vessels shall comply with Inland Navigation Rule 30 (Lights for anchored vessels). Mooring and anchoring is prohibited
